

Group Work Form 2025

Please comment honestly and indicate if there are any concerns that you believe the teaching staff should consider in the assessment of your group project.

Team Member 1:	Chloe Fulbrook, 30210975	Email:	chloe.fulbrook@ucalgary.ca
Team member 2:	Devon Calvin, 30204532	Email:	devon.calvin@ucalgary.ca
Team member 3:	Ethan Lee, 30213225	Email:	ethan.lee4@ucalgary.ca
Team member 4:		Email:	

How do you rate your group's overall cohesion?

Poor		Average		Excellent
☐ 1	☐ 2	☐ 3	☐ 4	☒ 5

How would you distribute the overall contribution of your team members? (should sum to 100%)

TM1:	33 %	TM2:	33 %	TM3:	33 %	TM4:	%
------	------	------	------	------	------	------	---

List the responsibilities/roles of each team member

TM1: Designed and implemented the finite state machine (FSM) used to manage UART display and button-based mode switching. Assisted with debugging ADC sampling routines and ensured the state transitions correctly reflected ADC value updates and button interrupts. Verified the UART output logic for proper single-line updates and ensured interrupt-driven input replaced any polling behavior.	TM2: Focused on debugging and validating the overall functionality of the system. Documented and explained the purpose of each code module, including the organization of ADC.c, UART.c, and the main FSM. Helped optimize interrupt configuration and eliminate "glitches" caused by simultaneous button presses.
TM3: Integrated all project components (ADC, UART, FSM, and interrupts) into a cohesive system. Managed testing, demonstration setup, and recording of the hardware and code functionality. Completed the written report, including the state diagram, descriptions of ADC setup, UART output, and the explanation of each team member's contribution.	TM4:

General comments (you may attach additional sheets if required to provide more information)
